THE ARTIST / IAN JENSEN

UnEqque (pronounced Unique) is the DJ and event identity of Ian Jensen, a San Francisco Bay Area artist working at the intersection of house music and community. His hybrid house approach centers on rhythmic momentum, thoughtful transitions and a set shaped for its place in the night. Organic, melodic and tribal influences widen the palette when the setting calls for them. His performance experience includes Butter's Pineapple Thursdays, F8, Belden Town and BuzzWorks. As creator of House by the Park in Fairfax, he also works across artist programming, promotion, venue coordination and live-event logistics. That perspective informs a straightforward booking approach: understand the audience, agree the musical direction and technical scope, and build a set that serves the room.

DJ. Curator. Event creator.

A defined house identity, with the perspective of the person building the event around the set.

Rooted in the room.
